Not included on recording.

4. H.C.E. Update

Recording began during update by Mike.

5. Items for Discussion

5.A. Pesticides Review from 09-02-25 Meeting

Morgan proposed drafting a letter to council citing concerns and current research on brain-disrupting chemicals that are part of the state-approved noxious weed control protocol.

5.B. City of Aspen Electric Lawn Equipment Event - Recap

The City of Aspen had shared that they had good turnout and engagement during an event for local landscapers. Morgan will check to see if Snowmass landscape companies were present. Maybe Snowmass could duplicate this event in April to highlight advances in batteries and equipment.

5.C. Water Resurfacing

Joe shared his research on Daylighting Streams in high grade environments like Snowmass. To further discussion and possibly present this idea to council, consensus pointed to needing specifics about areas (eg pilot project) where these concepts could be applied and a comparison of benefits vs. costs.

6. Upcoming Agenda Items

Continue Pesticides Review.

Daylighting Streams additional information.

Water & Sanitation - Letter of Support for a state grant deadline of December 1.

7. Next Meeting Date

Tuesday, November 4, but that is Election Day. Board hopes to reschedule vs. cancel November meeting.
